

RESULTS

Deliverables	Activities
	Development of contents to different themes in the field of agrobiodiversity (Block 2)
	Development of a methodological part (Block 3)

The topics of agrobiodiversity are included in:

- Two undergraduate careers: agronomy and plant protection
- Master degree program in Agroecology and Sustainable Development
- Doctoral degree program in Agroecology (SOCLA-UNA)

RESULTS

Deliverables	Activities
Certificate course (Output 1)	Development of contents to different themes in the field of agrobiodiversity (Block 2)
	Development of a methodological part (Block 3)

Methodology used:

- Surveys to producers
- Data field sheets
- Monitoring of temperature, relative humudity and rainfall

RESULTS

Deliverables	Activities	
Traditional knowledge is integrated in curricula (Output 2)	Project Region	
	La Dalia: 13°00'54" N and 85°04'06" W	
	Tisma: 12° 04' N and 86° 01' W	

Master degree thesis

Morphological and molecular characterization of *Phytophthora* palmivora (Butler) and its temporal dynamics in cocoa under agroforestry system in La Dalia, Matagalpa

RESULTS

Deliverables	Activities	
Research on biodiversity topics linked to study programs (Output 3)	Until now, no joint work has been done with the project partners	
	A teacher from UNA traveled to Germany to train in the subject of innovations through GIS and Remote Sensors - Google Earth Engine	

XXI University Conference of Scientific Development - 2019

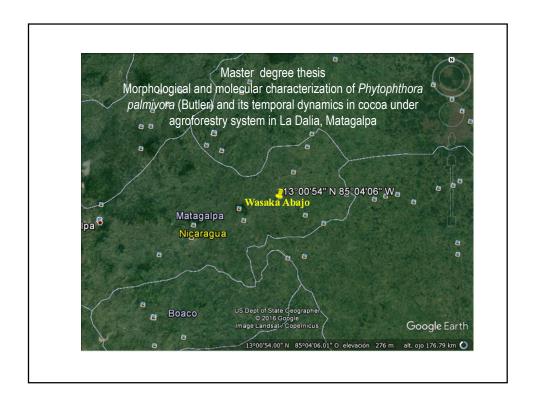

- Fertilization with biol
- Management of coffee rust with antagonistic fungi
- Agroecological evaluation
- State of agroecosystems
- Effect of moon phases in agroecosystems
- Establishment of agroforestry systems

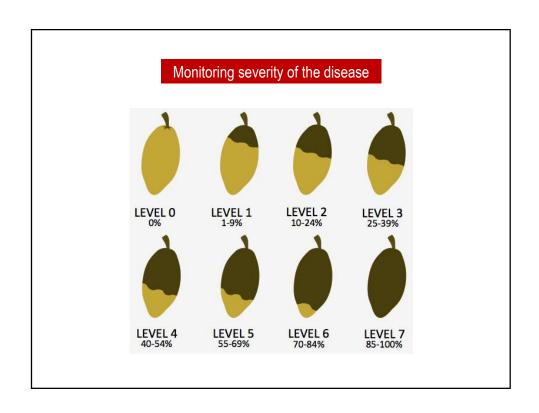

XXI University Conference of Scientific Development - 2019

- Establishment and management of an analog forest
- Resilience of coffee production systems
- Diversity of flora in forest and coffee agroforestry systems

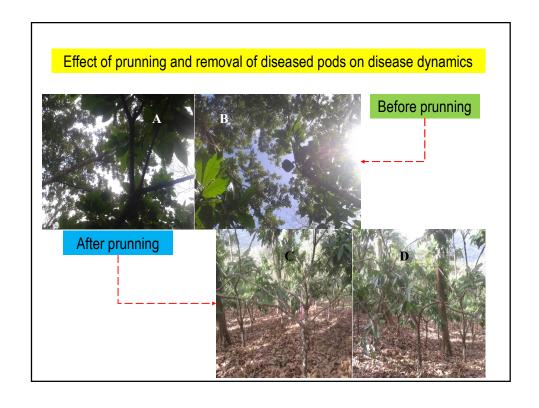

RESULTS

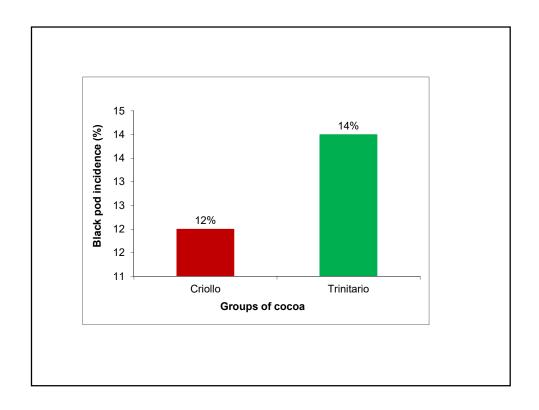

Deliverables	Activities	
	Participation in the Workshop in Ecuador: Jael Cruz and Ulises Blandón	
and Information (Output 4)	Excursion to different bio-agroforestry, agroforestry and agrobiodiversity systems	

Trees associated with cocoa crop

Common name	Latin name	Family
Elequeme	Erythrina fusca	Fabaceae
Coyote	Platymiscium pinnatum	Fabaceae
Guaba verde	Inga edulis	Mimosaceae
Laurel	Cordia alliodora	Boraginaceae
Guayabo blanco	Eugenia uruguayensis	Myrtaceae
Leche sapo	Sapium macrocarpum	Euphorbiaceae
Guácimo colorado	Luehea seemanii	Malvaceae
Palo de hule	Castilla elastica	Moraceae
Ojoche blanco	Brosimum alicastrum	Moraceae
Guacamayo	Triplaris americana	Polygonaceae
Níspero de montaña	Mespilus germanica	Rosaceae
Zapotillo	Couepia polyandra	Chrysobalanaceae
Roble de montaña	Tabebuia rosea	Bignoniaceae
Almendro de montaña	Dipteryx panamensis	Fabaceae
Banano	Musa paradisiaca	Musaceae
Mora	Maclura tinctoria	Moraceae

Trees associated with cocoa crop

Uses	AFS-Trinitario	AFS-Criollo
Musa spp	15	25
Timber species	14	72
Legumes	85	20
Firewood species	2	7
Cocoa	692	702

Some limitations during the first Project year

- The sociopolitical crisis experienced during the 2018 product of a failed coup.
- The UNA receives a state budget, which was reduced by 1.5 million dollars during 2019 due to the economic crisis that resulted from the failed coup.

PERSPECTIVES

- 1) Diversity and functioning of mycorrhizal fungi in fragile agricultural systems.
- 2) Evaluation the performance of bean cultivars (*Phaseolus vulgaris* L.) for its tolerance to drought.
- 3) Effect of arbuscular mycorrhizae on the vegetative development of *Citrus limon* rootstocks.

PERSPECTIVES

SECOND JOINT WORKSHOP

"Biodiversity in agricultural and forestry systems of Ecuador: experiences for sustainability"

Nicaragua 2020
